

Technical Bulletin

DP08	TB001-DP08-08	Elan Motorsports Technologies	
From:	Chip Lewis		
Subject:	<i>2008 Raised Nose and Damper Cover</i>	Date:	July 24th, 2008

Attention all Elan/Van Diemen RF97 thru DP08 teams

Available to order is a new Raised Nose and Damper Cover, DP08-40-007 and DP08-40-006 respectively. The new nose significantly improves airflow around the nose of the car, improving downforce and reducing drag. The new nose was developed in conjunction with Andersen Racing, and is run on Anders Krohn and Johnny Baker's cars.

This new nose requires new front wing pylons (DP08-40-009 & DP08-40-010). If you are required to run a front crash structure, a new version is available that fits this nose (DP08-40-026).

Parts prices and delivery information is available upon request from Elan Motorsports Technologies and its distributors.
