

Technical Bulletin

DP02	TB0024-2008	Elan Motorsports Technologies	
From:	Chip Lewis		
Subject:	2008 Rear Anti-Roll Bar	Date:	March 3 rd , 2008

Attention all Elan DP02 teams

Available to order is a new Rear Anti-Roll Bar, DP02-20-019. The new RARB is an improved version to prevent the breakage that occurred in a few of the previous units. In order to fit the new RARB, a slight amount of grinding may have to be done to the bellhousing, as shown in the second picture. A small trough may need to be ground into the cast edge.

Parts prices and delivery information available upon request from Comprent Motorsports.
