

Technical Bulletin

DP08	TB004-DP08-08	Elan Motorsports Technologies	
From:	Chip Lewis		
Subject:	Zetec Water Outlet	Date:	July 25th, 2008

Attention all Zetec powered F2000 teams:

Available to order is a new water outlet system for Zetec engines.

The new water outlet has several advantages over past designs:

1. Rotating outlet for optimum water line routing.
2. Thermostat fits in the correct direction, allowing for proper operation.
3. Water bleed is in front of the thermostat, providing proper air bleeding during warm-up.

The part number for this kit is ADP08-60039, and includes all o-rings and a thermostat.

Parts prices and delivery information is available upon request from Elan Motorsports Technologies and its distributors.
