<b>Subject:</b>	<b>RWEP for 3-Piece Tail</b>	<b>Date:</b>	<b>Mar 8<sup>th</sup>, 2012</b>

---

## Attention all Élan DP02 teams

A new Rear Wing Endplate has been introduced to fit new EMT supplied three-piece tails only (P/N: DP02-47-028). This Rear Wing Endplate is not designed for use with one-piece tails and one-piece tails that were converted into three-piece tails. This component is flat and unhandled, i.e. it fits both left and right sides.

All one-piece tails, including those that were converted to three-piece tails, use the existing Rear Wing Endplates (P/N: DP02-47-011 LHS, DP02-47-012 RHS).

Contact Carl Haas Automotive for parts availability and pricing.

John Harris, Design Engineer – (706) 654-2153 ext. 393
